

Bachelor of Science in **BIOLOGY**

Examine the World Around Us.

The Biology program provides the foundation to pursue academic and career goals through a diverse curriculum including research experience; an excitement for biology will be cultivated, promoting continued exploration, hands-on training using sampling and identification techniques in the lab and in the field. Students gain a comprehensive understanding of living things with the examination of plants, animals and microbes on a microscopic and macroscopic level.

PERSONAL

Our faculty has real-world professional experience to ensure you are challenged and supported through mentoring and the connections we provide.

PRACTICAL

Develop lifelong skills through your educational opportunities that are broadly useful, fully transferable and applicable to any challenge or career.

PURPOSE-DRIVEN

Use your degree as a stepping stone to pursue accredited certifications offered at leading organizations or post-graduate study programs.

CAREER AREAS:

- Medical, Dentistry or Veterinary (with Graduate Training)
- Public Health
- Academic Research in University Settings
- Research & Product Development in Medical Supply & Pharmaceutical Industries

PAY TRENDS:

The median annual wage* for the **Biology** field of degree is:

*Bureau of Labor Statistics, U.S. Department of Labor, Occupational Outlook Handbook. Not entry level - varies based on location, education and experience. Recent graduates would need to earn experience and advance in career to earn a higher salary.

“Being able to speak with faculty members with an open-door policy helped me as a student. Wesleyan has shaped key characteristics in my life such as leadership and critical thinking.”

Eboni Mayle, '22
BS in Biology, Minor in Chemistry

BS IN BIOLOGY

Scan to View Major Requirements
Minor in Biology available.

General Graduation Guidelines:

- Total of 120 semester hours, 33 of which must be numbered 300 or 400 (Other programs may require coursework beyond 120 semester hours)
- At least 9 semester hours of courses designated as writing intensive
- A declared major
- A cumulative GPA average of C (2.00) and at least a C average in the graduation major

WHAT YOU WILL LEARN:

- Gather and analyze ecological data
- Perform experiments to discover how ideas discussed in class are derived from laboratory observations
- Gain skills in techniques used in the isolation, purification and identification of common organic solids and liquids. Mastery of skills in extraction, crystallization, distillation and chromatography will be achieved
- Problem-solve with approaches specific to biological science fields such as molecular evolution, microbiology, environmental science, ecology, genetics, etc
- Communicate about biology and its implications with different audiences (lay, peer, scientific) using different formats (video, webpage, case study, op ed, scientific posters, etc.)
- Design, conduct and analyze scientific studies or experiments
- Achieve competence in biological sciences by investigating phenomena from a variety of fields in the discipline such as genetics, cell biology, ecology, animal diversity, animal form, animal function, diversity of life

ADMISSIONS CRITERIA:

Applying to NC Wesleyan is as easy as **1-2-3**. You will have direct contact with a personal admissions counselor who will assist you every step of the way.

- Apply online for FREE
- Submit your high school transcript (2.5 GPA or higher)
- Complete your FAFSA at **studentaid.gov** (School code is 002951)

When we receive your application and transcript, we will provide you with an admissions decision and which scholarships you may be qualified to receive.

For more information on admission requirements, visit **ncwu.edu/admissions**.
